Please refer to the message from Pamala List at the very bottom of this chain. Comptrollers and PADs were sent the message along with many others. The 3/14 message from Pamela, also in the chain below, suggests that R8 did reply. I do not want to get wires crossed in R8 so I am trying to determine who in R8 coordinated our response. Please let me know if you know who the R8 contact is.

I received the message late yesterday as the Regional Science and Technology Director. I have been asked to weigh in on research related hot topics by 10a this morning. I plan to respond with no additional topics from R8.

**Subject:** FIRE DRILL due 3/15, 12 noon EDT- Call for Hot Topics for Hearing Preparation

Hello RS&T,

I just received notification that ORD would like us to provide 2-3 MAJOR research related questions (hot topics) that we feel might come up in the Appropriations Hearings. Attached is a list of potential topics ORD is working on based on last year's hearings. They are looking for our regional perspective on research-related topics they should prepare Q&As for.

Please see below for details, or give me a call and I can try to find more information.

Please get me any ideas by tomorrow (Friday) noon EDT. Sorry so late, but I did not receive the original message.

Thanks very much –

Lisa

Lisa:

Thank you for your offer to help we can all we can get.

Could you please forward to us 2-3 MAJOR research related questions that you feel might come up in the hearings from a regional perspective?

Attached is a list of potential topics we are working from based on last years hearings. Our AA will be selecting questions for the various hearing preparations. Please provide any additional research-related topics for which you feel we should develop Q&As.

Thanks

**Chris**

Hi Chris,

I received the message below because I am the ORD/RS&T Lead Region Coordinator. Since we do not have an NPM-type relationship with ORD, I don't think you need anything from me. However, I wanted to make sure. Would you please let me know if I need to collect any hot topics from the Regional Science & Technology Programs?

(Julie, just FYI as a follow-up to the voicemail I left you this morning. No need to call me.)

Thanks!

Lisa

**Subject:** FW: Call for Hot Topics for Hearing Preparation

Good morning all -

We requested a list of hot topics for Appropriation Hearings by close of business yesterday and have not received a response from your office (Region 6, 7, OITA, OCSPP, ORD, OSWER and OECA). Please provide this information as soon as possible today to Daniel Kochis, Talitha Lindo, and me. If you have no hot topics in your area, please provide a negative response.

We are meeting this afternoon to determine which hot topics will need fact sheets, and will provide complete instructions for their preparation tomorrow.

Thanks.

Pam

**Subject:** Call for Hot Topics for Hearing Preparation

Hello all –

The House Energy and Commerce Committee hearing is tentatively scheduled April 10.

The House Appropriations Committee hearing is tentatively scheduled April 11.

The Senate Appropriations Committee hearing is tentatively scheduled April 17.

This is a request for each SBO, Regional Comptroller, and Regional Congressional Liaison to send their top 3 – 5 hot topics to facilitate preparation of the Acting Administrator for these hearings. We are asking you send these hot topics using the attached spread sheet, to Daniel

Kochis, Talitha Lindo, and me **no later than close of business, Wednesday, March 13, 2013**. If you have no hot topics in your area, please provide a negative response.

We anticipate sending a call for fact sheets with complete instructions; a schedule for their completion; a list of committee members; SBO, Regional Comptroller, RCL, and Media Analyst contact information; and a template for completion, later this week.

If you have any questions, please call Daniel Kochis at 202-564-0445, Talitha Lindo at 202-564-3964, or me.

Thanks.

Pam
